Professional Summary

Frontend Developer with 2+ years of hands-on experience building responsive, user-focused websites. Delivered 10+ client and personal projects using HTML, CSS, JavaScript, and React. Participated in a 2-day hackathon (June 2026) designing an AI-powered sustainability app (Releaf) with a cross-functional team. Combines frontend expertise with a Business Administration background to build functional, business-aware digital experiences.

Technical Skills

Frontend

HTML5 · CSS3 · JavaScript (ES6+) · React.js · Responsive Web Design

UI/UX:

Figma · Wireframing · Prototyping · UI/UX Principles

Tools:

Git · GitHub · VS Code · GitHub Pages

Professional:

Communication · Client Management · Team Collaboration · Problem Solving · Time Management

Additional:

AI Product Design · Design Thinking

Experience

- Freelance Frontend Developer | Remote 2024 – Present
- Built and deployed 10+ responsive websites across client and personal projects using HTML, CSS, JavaScript, and React.
- Developed React applications with form handling, state management, and reusable components

- Translated client business requirements into clean, functional user interfaces
- Managed projects independently from wireframe to deployment using GitHub Pages
- Designed UI layouts using Figma before development to align with client expectations

Student Mentor | SNHU Mar 2026 – Jul 2026

- Mentored 5+ students over 4 months in academic and tech-related tasks
- Helped simplify data-related and organizational tasks for students

University Administrative Internship Dec 2025

- Supported orientation sessions and student onboarding coordination

Hackathon

Youth Tech Hackathon – AI for Sustainability | Team Releaf Jun 20–21, 2026

- Designed and developed Releaf — an AI-powered food waste reduction app in 2 days
- Built interactive dashboard and MVP prototype connecting households, organizations, and farmers
- Applied AI product design, UX/UI design, design thinking, and sustainability innovation
- Collaborated in a cross-functional team of 4; published demo video on LinkedIn

Projects

Aya World – E-Commerce Website (HTML · CSS · JS)

Full product-listing site with cart interactions, built for a real client.

Requesting a Loan (React · CSS)

Multi-step React application with form validation and state management.

To-Do List Application (React · CSS)

CRUD task manager with local state, clean UI, and responsive layout.

Honey Business Website (HTML · CSS)

Clean product website with a warm aesthetic, built for a small business.

Education
